PROFESSIONAL SUMMARY

Frontend-focused Software Engineer with hands-on full-stack experience in the MERN stack. Experienced in building and deploying real-time web applications using React, JavaScript, Node.js, Express, MongoDB, REST APIs, and Socket.IO. Strong expertise in responsive UI development, backend integration, real-time data synchronization, and scalable application architecture. Proven ability to design end-to-end workflows and deliver production-ready web solutions.

SKILLS

Technical Skills: Node.js | Express.js | MongoDB | Socket.IO | Redux | Next.js | NextAuth | React | TypeScript | JavaScript | Tailwind CSS | Bootstrap | HTML | CSS

Tools: VS Code | Postman | Git | GitHub | MongoDB Compass

Soft Skills: Attention to Detail | Communication | Problem Solving | Time Management | Organization

WORK EXPERIENCE

SEVENUNIQUE TECH SOLUTION PVT. LTD., JAIPUR | JULY 2024-DEC 2025

Frontend devloper

- Developed and maintained a Fintech B2B & B2C web platform using React.js, focusing on reusable components, form validations, and seamless REST API integration for financial workflows.
- Collaborated with cross-functional teams (designers and backend developers) to deliver responsive, user-friendly, and scalable UI solutions.
- Contributed to the development and optimization of the company's official website (sevenunique.com), improving frontend structure, performance, and usability.
- Built and maintained responsive UI components following modern frontend best practices and accessibility standards.
- Worked on multiple client projects across fintech, service-based, and business domains, delivering production-ready web interfaces aligned with client requirements and timelines.

PERSONAL PROJECTS

FRONTEND WEB DEVELOPMENT

Personal Portfolio Website | Live: <https://anisha-parmar-webdev.onrender.com/>

- Developed a responsive personal portfolio website using React.js, Tailwind CSS, and GSAP.
- Designed interactive sections, project showcases, and contact forms for improved user engagement.
- Optimized layouts and animations for performance, responsiveness, and cross-device compatibility.

FULL-STACK WEB DEVELOPMENT (MERN / NEXT.JS)

Real-Time Ride Booking Web Application | Live: <https://uber-clone-frontend-2ubg.onrender.com/>

- Developed a full-stack MERN application with real-time location tracking using Socket.IO.
- Integrated Google Maps API for route rendering, distance calculation, and ETA estimation.
- Implemented user authentication using JWT to manage secure user sessions.
- Handled frontend-backend state synchronization to manage the complete ride lifecycle.
- Built a responsive UI using Tailwind CSS and enhanced user experience with GSAP animations.

Full-Stack Video Streaming Application | Live: <https://fullstack-video-application.onrender.com/>

- Built a full-stack video streaming application using Next.js, MongoDB, and Tailwind CSS.
- Implemented JWT-based authentication to control user access to media features.
- Developed server-side functionality for media upload, retrieval, and playback.
- Integrated ImageKit for secure image and video storage with CDN-based optimized delivery.
- Designed end-to-end frontend-backend workflows with responsive UI.

EDUCATION

MANIKYA LAL VERMA GOVERNMENT TEXTILE AND ENGINEERING COLLEGE

Bachelor of Technology (B.Tech) – Computer Science | 2022 – 2026

CGPA: 9+

ACHIEVEMENTS

- Employee of the Month
- Promotion with salary increment
- Solved 100+ problems on LeetCode
